

Smart Home Villa Type 7inch Wireless Video Door Phone Intercom System PY-V806MJM11

Feature:

1. 2.4G working frequency, with 300m long distance based on without block.
2. With micro-processing technology, auto-remote control
3. 7inch TFT color display.
4. Outdoor camera with 0.3Mega pixel.
5. Clear Nightvision, 24 hours monitoring,intercom and unlocking via remote control etc.
6. Indoor monitor with time display
7. Built-in Rechargeable lithium battery,charged by power adaptor.
8. Can be synchronized with the computer and read data.
9. Owner can take/save/view the picture,with storage about 100 photos .
10. Monitor not only hang on the wall and cabinet, but also place on the desk and table.
11. Build-in 16 chord melodies.

Indoor monitor Technical Parameter:

Screen:	7" TFT LCD
System	PAL/NTSC (Optional)
Pixels	960*480
Sensitivity	90dBm
Working current	250mA
Standby current	20-30mA/3.7V
Backup Battery	Rechargeable lithium battery
Battery capacity	1350mah
Standby time	120h
Power Supply	AC100~240V, 50/60Hz, DC5V/1A
Power Consumption	6W
Wireless distance	about 300m without block
Working Temperature	-10°C ~ +50°C
Storage Temperature	-20°C~+60°C
Working humidity	less than 85%
Size	22.5*12.8*2.3cm

Outdoor Camera Technical Parameter:

Camera Type	1/4 Color CMOS OV7725
Pixels	PAL:628*582 NTSC:510*492
Resolution	>420 Line
System	PAL/NTSC (Optional)
Focus(mm)	3.6mm
Viewing Angle	92degree
Battery	Rechargeable lithium battery
Battery capacity	1350mah
Standby time	2 month
Adapter input	AC100~240V, 50/60Hz
Adapter output	DC5V/1A
Power Consumption	2W

Dimension: (H)168×(W)110×(D)65mm

Package includes:

- 1 * Outdoor camera
- 1 * Indoor monitor
- 1 * AC adapter for outdoor camera
- 1 * AC adapter for indoor monitor
- 2 * Rechargeable battery
- 1 * USB cable
- 1 * Package of screws
- 1 * User manual - English
