Power Supply PCB

Power supply in support
Auto protection
Control electric locks or bolts directly.
Reduce the load of access controller
Lower potential trouble
NC/NO output, control all kinds of electric locks

| Power Input | Standard 220VAC,50HZ |
|-------------------|----------------------|
| Power Output | Standard 12VDC,3A/5A |
| Unlock delay time | 0~10S |
| Dimension | 180X77X77mm |
