

**Wired Audio Door Phone System Outdoor Unit Widely Used for Building Apartment
Model# PY-DPEZ-K**

Technical Parameters:

1. Unlock via Password or ID Card
2. Self-check function, will be indicate if fault on the line
3. Voltage: DC12V \pm 10%
4. Audio Distortion<5%, Audio To Noise Ration \square =50dB
5. Working Current: static state \square \leq 160mA
dynamic state \square \leq 350mA
6. Working temperature \square -40 $^{\circ}$ C -+50 $^{\circ}$ C

Note: Usually work with indoor unit PY-DP20J3
