

**Parameters:**

|                     |                             |
|---------------------|-----------------------------|
| Resolution          | 3000                        |
| Capacity            | 100,000                     |
| Model               | ZEM510                      |
| OS                  | ACEBON                      |
| OS Version          | ACEBON v10.0                |
| Communication       | RS232/485, TCP/IP           |
| Supported Languages | Workcode, DLST, SMS, ID /RF |
| Display             | TFT 3"                      |
| Power Supply        | DC 5V 2A                    |
| Humidity            | 20% - 80%                   |
| Dimensions          | 200 x 145 X 58 mm.          |
| Weight              | 1.05 kg                     |
| OEM                 | Yes                         |
| SDK                 | Yes                         |

**Notes:**  
The device is designed for use in industrial environments.
